Please send the second key. We paid a lot already.
You have it. You have already sent us files decrypted with another key.

Scan your files, then select the
script option and enter the key,
then click OK

Any file encrypted with
BC481DE6 will be reopened

Pay attention to the writings on the files and what code is on them

We paid only 0.07BTC for 1 identifier (<https://www.blockchain.com/ru/btc/address/1Q5z3a2RdPz2jrukWnTgAjUKZvtZ5Q9zwb>).

Once again I uploaded the files that you decrypted earlier and for which there is a key.
We ask you to send it.

Your server is encrypted with these two identifiers

The first ID is ready and the second ID takes 12 hours to prepare

You have to pay 0.1BTC for both of them
If you waste time, the IDs will be more

11 Oct 2020, 21:42 by pmalcev@gmail.com:

after receiving the money, how can you immediately reset the key?

вс, 11 окт. 2020 г. в 21:10, <mencryptor@tutanota.com>:

Do not send money There is no key

11 Oct 2020, 21:27 by pmalcev@gmail.com:

We need the key that decrypts the file in the attachment. There is no money anyway. Will it be done?
How long will the key be sent?

вс, 11 окт. 2020 г. в 20:53, <mencryptor@tutanota.com>:

Your files are encrypted with two identifiers

Pay 0.1BTC if you want to reopen them all without any problems

If you want only one ID, pay 0.07BTC

If more time passes, more IDs will be created

11 Oct 2020, 21:09 by pmalcev@gmail.com:

Такой файл мы тоже сможем расшифровать? Почему Вы писали что другой ID у меня в файлах?

Через сколько после оплаты пришлётё ключ? Can we decrypt such a file too? Why did you write that another ID is in my files? How long after payment will you send the key?

вс, 11 окт. 2020 г. в 20:30, <mencryptor@tutanota.com>:

Rest assured the key will be sent with your ID

11 Oct 2020, 20:45 by pmalcev@gmail.com:

If we find the money, do you guarantee the key without additional conditions?

вс, 11 окт. 2020 г. в 19:49, Павел Мальцев <pmalcev@gmail.com>:

Trying to find money

вс, 11 окт. 2020 г. в 18:10, <mencryptor@tutanota.com>:

The test file has been reopened for you and the key will be removed in three hours

The cost after removal will be 3,000\$

11 Oct 2020, 18:31 by pmalcev@gmail.com:

this file?

вс, 11 окт. 2020 г. в 15:53, <mencryptor@tutanota.com>:

We can reopen it with any ID

Over time, the number of IDs increases and you have to pay more for each ID

11 Oct 2020, 16:20 by pmalcev@gmail.com:

You stated that these files have a different ID and at the same time they were decrypted, but the file is not in the attachment. What's the catch?

A virtual system was spinning on the computer. And she has a separate ID?

вс, 11 окт. 2020 г. в 15:34, <mencryptor@tutanota.com>:

Decrypt
