The key is complete

If the file is not reopened, a new ID has been found and should be checked

This requires payment

I already paid a lot already.  
How to understand that there is still an identifier?  
This key is for which ID?

This key is for the previous two identifiers

The ransomware works in such a way that it changes the key if it is not reopened within the specified time

And now it has happened  
But this time your last payment will be for the last key

## So do not waste time

The sent key does not fit. The format does not match. Photo as an attachment.

Send the key that will decrypt ID 3E8A2508 as we agreed. I paid for it by believing you and ask you to reset the valid key again.

Send as you promised a working key for key ID 3E8A2508 in telegrams.  
Trust me there is no more money. I cannot translate anything for you. You made me a poor man.  
I don't want to waste my time on forums and post information about you and correspondence there. But if I cannot decrypt the files, then I will do it for principle.  
I believed you 3 times and I hope that you are a man of your word.

The key is perfect and flawless

Each file with this key that  
contains two IDs will be reopened

Your files are most likely infected  
with another item

# We promise that this will be your last payment

I trusted you 3 times and still couldn't recover the files. I'm over it. There is no money, and even if there were, I would not have paid.

Vata attitude towards people who trusted you is short-sighted. This will be a lesson for me.

And believe me, nothing goes without a trace and the boomerang will return to you. And I can survive. I will work and not deceive people.

I'm waiting for the key until tomorrow morning. Then I will turn to freelancers to quickly write topics with our correspondence and your approach to providing the key after payment.

You decide.

You can not succeed by threatening

I sent you the key and I am doing this for the third time

Your payment was not on time and this key will only reopen two IDs

We do not need your key to put a hat on your head

It is better to have the last payment so that all the files will be reopened within the next hour  
Only one hour

Dear customer, this key is made  
for your IDs

Nothing happens when you load  
We have a separate email for  
each customer

Trust our team for the last time  
You will receive your files within  
the next hour

So pay without wasting time

The key sent by you is incorrect.  
You are liars. But I don't, and tomorrow I will do what I promised.

By looking at the data, we realized that your files have an ID tag

We will delete them all in the next few hours

This ransomware will be obsolete in the next 24 hours with the address of Harma and two existing emails

So your information in the forum will be completely useless

If you make a wise decision, you will close the deal today
